

# Limited Warranty for the WaveFront TillerClutch™

(disclaimer below)

## The Period of Coverage

WaveFront, Inc. warrants its TillerClutch™ products for the lifetime of the products.

## What the Warranty Covers

All parts of a TillerClutch are covered by this warranty for workmanship, integrity, durability, and proper functioning of the product.

## What the Warranty Does Not Cover

This warranty does not cover the tiller or control rope or any other accessories. Nor does it cover any part of a boat or any other property. In no way shall WaveFront, Inc. be liable for any amount exceeding the product's purchase price.

## What We Will Do to Correct Problems

You will be responsible only for removing and shipping the product to us. Upon receiving the product, we will repair or replace a defective product at our discretion and return it to you at no cost, except for any international shipping costs, fees or taxes.

## Return Policy

Within 60 days of purchase, if for any reason you are unsatisfied, return your product with a copy of your receipt for a full refund to the address found on [www.WaveFrontMarine.com](http://www.WaveFrontMarine.com).

## How You Can Get Service

Contact Wavefront, Inc. at [info@WaveFrontMarine.com](mailto:info@WaveFrontMarine.com) for assistance with questions or warranty needs.

## Who Is Covered

This warranty extends to the original purchaser having a receipt as proof of purchase. If you have lost your receipt, contact us and we will determine how to proceed.

## What Voids the Warranty

Actions that could void the warranty at our discretion include tampering with the product or disassembly, improper use or abuse, and the application of solvents to the self-lubricating synthetic bushings. Normal heavy use is covered by the warranty.

## DISCLAIMER

Safely steering and piloting a boat is the responsibility of the helmsman, who must be attentive and use caution when leaving the tiller for any reason.

Sailors of unballasted boats should use extra caution when securing the tiller with a TillerClutch™, and should only do so if they are experienced. They should not secure the tiller with any device in potentially dangerous weather conditions.

The higher-powered TillerClutchX model is intended only for heavy keel boats, and should not be used on lighter-weight trailerable boats.

Wavefront, Inc. and its owners do not under any circumstances assume responsibility for damages to any person or property that may be incurred in connection with the use of its products.

If the purchaser chooses not to agree with this disclaimer, he/she is welcome to return a WaveFront product for a full refund within 60 days of purchase.
